

WATER SUPPLY & TREATMENT
OF THE PRINCETON, CONNECTICUT

Many times we receive calls at City Hall from people who want information about the Cemetery or who want to register complaints about the condition of the Cemetery.

The response is always the same- the City of Prineburg has nothing to do with the Prineburg Cemetery. The City does maintain the Cemetery and the Cemetery is not located within the city limits of Prineburg.

That would normally answer the question that many have the following question is - well, who is responsible then?

The Prineburg Cemetery Association has relationship with City of Prineburg is responsible for the Cemetery. We then get the question as to how do you get in touch with the Association.

This meeting a member of the Prineburg Cemetery Association told us to have anybody who wants to get in touch with them to call Marie (phonetic) at the P.O. 2 stop in Prineburg. Their number is 888-888-1111. This representative also stated that there is no charge of the sale of plots in the Cemetery.

Hopefully this answers your questions about the cemetery as they relate to the City of Prineburg being in any way involved in maintenance, ownership or the sale of plots in the Cemetery. Additionally, the City of Prineburg does not spray insecticides in this area or in outside of the city limits.
